Why succumb to plain white walls when there are so many excellent opportunities to think outside the box? When it comes to wall decor, you can go a number of different routes, whether you opt for picture frames, decals, paint, or tapestries. These days, however, we're especially loving wallpaper—specifically in mural form. Wallpaper murals add so much welcome color, dimension, and personality to any room and will majorly transform a space so that it looks custom and unique. So what are you waiting for? Add a painted wallpaper mural to your home choice today. Here are some creative ways interior designers used wallpaper murals that set the tone for the space they designed.

Twists and Turns

Say yes to swirls! This happy print is reminiscent of [Japandi](#) style and is just one of many patterns featured in this playful children's bedroom by [Etch Design Group](#). The takeaway? Don't be afraid to mix and match different types of geometric designs; the end result is artistic and eye-catching.
