

15 Vibrant Backsplash Colors for White Cabinets

Never underestimate [the power of a backsplash](#). It's the perfect example of how thoughtful design can be the crossroads of form and function, adding a dose of color, pattern, and texture while also keeping your walls safe from wayward spaghetti sauce. When you're working with [white cabinets](#), a backsplash is all the more important for setting the tone of your dream kitchen's style.

Backsplash Colors That Go With White Cabinets

Just one of the many great things about white kitchen cabinets is that they pair with nearly any backsplash color, from calming neutrals to vibrant hues and every shade in between. To narrow down which colors most inspire you, consider the lighting in your kitchen, the warmth (or coolness) of the white cabinets, and the overall energy you're going for. And don't forget: have a little fun.
